EDUCATION

Middlebury College

Expected February 2024

Candidate for B.A. in Psychology with Minor in Computer Science

GPA: 3.97/4.0

Honors thesis: Proximizing Societal Issues with Data Visualization: A Construal Level Perspective

Relevant coursework: Cognitive Psychology, Sensation and Perception, Social Psychology, Data Visualization, Data Science Across Disciplines, Machine Learning

RESEARCH EXPERIENCE

Visual Thinking Lab, Northwestern University, IL

June 2023-August 2023

Research Assistant

- Build a web-based interactive designer's guide for creating dynamic data visualizations that respect perceptual limits.
- Analyze data from a behavioral experiment on argument mapping and belief change.

Principal Investigator: Steven Franconeri, Ph. D.

Conservation Psychology Lab, Middlebury College, VT

January 2022-present

Research Assistant

- Conducted an independent study on the effect of psychological distance and personal value on climate change concern and mitigation behavioral intention. Reviewed literature, designed and ran a behavioral experiment, analyzed data, and authored a manuscript.

Principal Investigator: Michelle McCauley, Ph. D.

Child and Baby Lab, Uppsala University, Sweden

August 2022-December 2022

Research Assistant

- Ran behavioral experiments to examine additive cognitive biases in problem solving strategies in adults. Analyzed results and co-authored a manuscript.

Principal Investigator: Joshua C. Juvrud, Ph. D.

Vermont Center for Behavioral Science Research on Climate and the Environment, Middlebury College, VT

June 2022-August 2022

Research Assistant

- Collected and analyzed survey data for two studies on climate attitudes and decision making.
- Reviewed literature on the influence of personal experience of natural disasters on climate beliefs.

Principal Investigators: Michelle McCauley, Ph. D., Julia Berazneva, Ph. D.

Institute of Urban Environment, Chinese Academy of Sciences, China

July 2018-September 2021

Research Intern

- Conducted complex network analysis on international plastic waste trade data and authored a manuscript.
- Modeled the future demand and recycling potentials of metal materials for lithium ion batteries of electric vehicles in 90+ cities in China. Reviewed literature, collected data, developed models, and visualized results.

Principal Investigators: Wei-Qiang Chen, Ph. D., Peng Wang, Ph. D.

LEADERSHIP EXPERIENCE

Jiezi SpeakGreen, China

August 2021-present

Co-founder and Content Writer

- Co-founded an initiative that aims to communicate environmental problems, increase affinity with nature, and encourage pro-environmental lifestyles amongst young people in Chinese cities.
- Wrote 15+ environmental and science communication articles for the initiative's public social media account, which has 600+ subscribers and received 4 million + views in total.

EcoDorms, Middlebury College, VT

January 2022-May 2022

Student Intern

- Organized weekly activities in first-year dorms at Middlebury College with the goal of increasing environmental awareness and building community.
- Wrote weekly posts for an environmental education blog.
